What is the Grant-in-Aid for? (attach an extra sheet if necessary)

We are applying for funding to support our bookkeeper and financial planning aspects of our organisation with a laptop that is owned by BWMCDA. Until now we have used a local business computer and software set up however as we grow and develop the need for secure and well-planned finances is essential. A laptop will allow us to store confidential information as well as back ups of our files online in a secure location. Currently we use Google Drive to store a lot of data with no hardware backup on the mountain. As mentioned in our bookkeeping application as we grow the structure and maintenance of these systems is even more essential to provide security and sustainable development for our future. We estimate the cost of the laptop to be in $500 including an external hard drive as an additional back up.

What is the Grant-in-Aid for? (attach an extra sheet if necessary)

BWMCD is requesting funds to purchase Sage Bookkeeping software. To support the other 2 applications we are putting in having a central invoicing and accounts receivable system ensures that we are compliant from a financial systems perspective. We anticipate dealing with increased funds as our community grows and as our infrastructure and projects grow. Currently our biggest project is Summer Camp which has a payroll element attached to it. Other large projects currently happening are our recycling fundraising, Wellness, Project and Community Needs Assessment. There are other ongoing, smaller projects too which require proper invoicing, receipts and tracking of funds. With this program we feel we are better equipped to face the future of our ever growing community.

We are applying for funding to support our bookkeeper and financial planning aspects of our organisation. As we grow and develop the need for secure and well-planned finances is essential. Our activities of a Summer Camp (with payroll), Wellness Project and Community Needs Assessment are some examples of the kinds of large projects where having well looked after financial systems is key. As we grow the structure and maintenance of these systems is even more essential.
